

# MAKING EUROPEAN POWER GRIDS MORE RESILIENT AND SECURE

**23**  
**partners**

**4**  
**pilots**

**The eFORT project**, funded by Horizon Europe, aims to make the Electrical Power and Energy System safer, more reliable, and secure.

**eFORT will develop** a range of technologies and strategies to identify, prevent and mitigate risks and vulnerabilities in electricity grids.

**The solutions** will be demonstrated at four pilot sites across Europe.
